

Federal Impact on Texas

- Texans are subjected to 180,000 pages of Federal laws, rules and regulations.
- The Federal laws are administered by over 440 separate agencies and commissions that employ over 1.5 million unelected bureaucrats.
- Each Texan only gets to vote for 4 people out of the 1.5 million Federal bureaucrats: President, 2 Senators and 1 Congressman.
- No matter how we decide to govern ourselves here in Texas, every decision that we make can be overturned by Federal bureaucrats for whom we had no choice.
- Since 2009, the State of Texas has sued the Federal Government over 40 times to combat Federal overreach. To date, Texas has only won 6 times.
- According to a study released in 2013, excessive Federal regulation has cost every Texas household 75% of their wealth and earning power.
